

CHINA Foreign Enterprise Directory

中国外资企业名录 13th Edition/2011

Welcome to the thirteenth edition of the China Foreign Enterprise Directory (now usually referred to as "The FED"). This is, once again and without doubt, the largest China Directory of its kind ever compiled.

ISBN 978-988-35137-4-8

9 789888 151374

The most comprehensive directory of multinational and foreign companies in the China market

Foreword

Welcome to the thirteenth edition of the China Foreign Enterprise Directory (now usually referred to as “The FED”). This is, once again and without doubt, the biggest China Directory of its kind ever compiled.

With more and more companies coming into China, our enterprise data is constantly growing. This edition includes information on:

6,840 companies

10,933 locations

11,868 contact individuals

The feedback we receive indicates that the FED has become a key reference work for the China market. This new edition follows the original purpose of providing instant access to the contact information for top managers and locations in thousands of foreign companies in China, and it has, as always, been fully checked and expanded once again by our team of researchers.

In response to the significant amount of feedback received from users, we have added individuals for as many locations (branch offices) as possible, so that the information listed is clearer and richer. We have marked in bold the companies which are newly added or updated.

Also separately available is the new FED13 CD. It has been upgraded according to feedback from our readers, and allows for fast searches using a variety of criteria. With the CD version, you can now:

- **Print** labels
- **Annotate** company entries with your own notes
- **Search** companies by different criteria
- **Link** via Internet to the website of listed companies
- **Export** to Excel (emails)

If you wish to add or change any information in the FED with regard to your company, please feel free to submit the changes to us by filling in the Entry/Update Form through fax or email.

I would like to thank all the people who contributed to FED13. It is their hard work and the pleasant cooperation between all departments that has made FED13 what we hope will be an extremely useful business tool for you and your company.

May all your deals be profitable.

User Guide

The China Foreign Enterprise Directory (The FED), published every six months by SinoMedia Holdings (HK) Ltd., is the definitive source of contact information for offices and operations of foreign companies operating in mainland China.

Quick Start Guide

To find a company by name, please turn to the Alphabetical Company Index beginning on page XV. There you can search according to the global corporate name.

To find a company by industry, please turn to the Industry Company Index beginning on page XLI.

To find a company by headquarter location, please turn to the Country Company Index beginning on page LXIX.

To find a company by China location, please turn to the Location Company Index beginning on page IC. There you can search for foreign companies located in China all provinces.

Structure of the Book

The main section of the FED organizes companies firstly by industry sector. This provides a quick and easy way to compare and refer to all companies in the same industry. The Directory is divided into a total of 19 sectors.

Secondly, some industries are broken down into sub-sectors. To see the list of the sub-sectors used for a given industry, please refer to the contents listing on page VIII. Companies are ordered alphabetically in each sub-sector. Note that the name of the sub-sector is indicated at the top of each page.

Structure of a company record

Each company entry is organized as follows:

Company Information

A thin black bar marks the start of a company record. Beside and below are listed:

Company name (English)

Company name (Chinese)

HQ: Country of the company's global headquarters

Web: The company's global main website

GE: The company's global general email

Location Information

Each separate location (branch) within China is marked by a small black square. Beside and below the box are listed:

Local branch name (English)

Local branch name (Chinese)

Local Type: Industry for the branch

Local Website: Website for China

Local GE: email for the branch

Address (English)

Address (Chinese)

Postcode

General Tel

General Fax

Names and job titles of key staff are listed beneath the location where they can be reached. Some key staff also agree to list their private email addresses.

When is an Enterprise a Foreign Enterprise?

All companies with global headquarters incorporated outside mainland China are considered foreign for the purposes of this Directory. Joint ventures involving foreign shareholders are also included. But China's rich tapestry of links with the rest of the world sometimes makes it difficult to decide which companies are "foreign" and which are not. There are therefore a few companies in the Directory that are borderline domestic.

Entry / Update Form

Please fax this form back to SinoMedia Holdings (HK) Ltd. and its local agent, Shanghai Yanran Advertising Ltd.
+86 21 5385 8953 to add or update your company record.

If your company is already in the Directory, please write the page number here: _____

Global Headquarters Information

Company Name (English): _____

Company Name (Chinese): _____

HQ Location (Country): _____
